5. (Confidential - GLC) In response to a query from Jim Gehrig, Staff Director, Senate Aeronautical and Space Sciences Committee, I gave him very general information on the Soviet and Communist Chinese launches over the weekend. Gehrig said this would suffice for the time being, but would like to have a briefing from Mr. Brandwein when he had sorted things out a little more. He said he was generally interested in our opinion of the significance of the ChiCom launch of a satellite in terms of their technological capabilities.

6. (Secret - GLC) Picked up from George Murphy, Deputy Director, Joint Committee on Atomic Energy, the transcript of the Director's briefing of 10 March 1970 for review, correction, and return to the Committee.

In response to his questions I briefed Murphy on the Soviet and Chinese Communist space launches over the weekend.

7. (Unclassified - LLM) Chris Shanks, in the office of Representative Charles W. Whalen (R., Ohio), calling on behalf of a constituent, asked if we had any information on the Venceremos Brigade. I told her that any information we had on this subject would have been relayed to the responsible Federal agency since this matter was outside our responsibility. Miss Shanks thought this would be the case and said she had received some information from the FBI.
